Product Overview

Safety-Critical Striking Wrench

This non-sparking striking open end wrench is engineered specifically for use in hazardous environments where flammable or explosive vapors, liquids, dust, or residues are present. Constructed from high-quality aluminum bronze or beryllium copper alloys, it effectively prevents sparking during striking or impacting operations. Designed for heavy-duty use in oil refineries, chemical plants, and mining operations, it ensures safety and reliability when working with fasteners in volatile atmospheres.

Technical Specifications

Explosion Proof Rating

ExII C

Material Composition

Aluminum Bronze, Beryllium Copper

Standard Compliance

DIN 133

Wrench Size

50 mm

Applications

Suitable Industries

- Oil & Gas Refineries
- Chemical Processing Plants
- Mining Operations
- Hazardous Atmosphere Maintenance
