

Non-Stick Aluminum Deep Saute Pan with Glass Lid

This deep saute pan features a durable non-stick coating for easy food release and cleanup. Constructed from heavy-gauge aluminum, it ensures even heat distribution and includes a tempered glass lid with a steam vent and heat-resistant knob.

Product Overview

Professional Deep Saute Pan

This high-performance deep saute pan is engineered from heavy-gauge aluminum to ensure consistent, even heat distribution across the entire cooking surface. Featuring a durable non-stick coating, it simplifies food release and streamlines cleaning processes in demanding commercial or residential kitchens. The included tempered glass lid allows for precise monitoring while retaining moisture during delicate braising or sauteing tasks.
