

# Non-Stick Quesadilla and Waffle Maker

This waffle maker is designed for baking waffles and quesadillas. It features a non-stick surface that ensures easy removal and simplifies the cleaning process.

## Product Overview

### Versatile Kitchen Appliance

This heart-shaped waffle maker is designed for high-efficiency kitchen performance with double-sided heating technology. Featuring durable cast aluminum cooking plates, it ensures even heat distribution for perfectly cooked results every time. Its compact vertical storage design and built-in power cord management make it an ideal choice for space-saving professional or home environments.

## Technical Specifications

Cooking Plate Material	Casting Aluminium
Heating Configuration	Top & Bottom Double Heating

## Features
