

Notched Trowel for Adhesive Spreading

This notched trowel is designed for spreading adhesives or thin-set mortar evenly on surfaces. The blade's edges are notched to create ridges in the adhesive, ensuring proper bonding and coverage when laying tiles or other materials.

Product Overview

Professional Adhesive Trowel

This durable notched trowel is specifically engineered for professionals requiring precise adhesive application during tiling and flooring projects. Its stainless steel construction ensures long-term resistance to corrosion and wear, while the ergonomic handle design minimizes hand fatigue during heavy-duty use. The consistent notch pattern facilitates ideal thin-set ridges for a secure, professional bond every time.

Technical Specifications

Blade Dimensions

280 mm

Length

115 mm

Width

Construction Materials

Stainless Steel, Plastic, Rubber

Features

Key Design Elements

- Corrosion-resistant metal blade
- Ergonomic dual-material handle
- Notched edge for optimal adhesive distribution
- Robust metal shank connection
