

NP-45 Camera Battery 3.7V 500mAh

This is a high-capacity lithium-ion battery pack. It is designed for Sony NP-45 cameras and provides reliable power for extended shooting sessions.

Overview

Reliable Power for Your Camera

This high-capacity lithium-ion battery pack is engineered specifically for compatibility with NP-45 camera systems. Delivering a consistent 3.7V output and a 500mAh capacity, it ensures reliable performance for extended shooting sessions. Designed for durability and efficiency, this battery is an essential accessory for maintaining camera uptime.

Technical Specifications

Voltage	3.7 V
Capacity	500 mAh
Battery Chemistry	Lithium-ion (Li-ion)
Compatibility	NP-45, NP-FT1
