

NPT Ball Valve

This ball valve is suitable for applications in oil fields, the chemical industry, and coal mines. It can also be used for environmental protection purposes.

Overview

Reliable Flow Control

This 1-piece NPT ball valve is engineered for dependable shutoff and precise control of fluid flow in demanding environments. Constructed from high-quality stainless steel, it features female NPT threaded connections for seamless integration into existing piping systems. The lever-operated handle allows for quick quarter-turn on/off control, making it an ideal choice for plumbing, HVAC, and various industrial processes.

Technical Specifications

Valve Size

1.5 inch

Ball Valve Size

Connection Type

NPT, BSPT, Threaded

Material & Build

Material Grade

Stainless Steel • CF8 • CF8M

Construction

1-Piece Body Design

Operation

Control Mechanism

Manual Lever Handle

Operation Type

Quarter-turn On/Off

Applications

Suitable Applications

- Plumbing Systems
- HVAC Systems
- Industrial Processes
- Fluid Flow Control
