

Nylon Mesh Car Window Shade

This car window shade is constructed from durable nylon mesh. Measuring 44*38CM, it provides shade and helps to keep the car interior cool.

Product Overview

Sun Protection Solution

This nylon mesh car window shade provides essential protection against harmful UV rays while traveling. Crafted from lightweight polyester mesh, it effectively blocks direct sunlight to keep the interior cooler and passengers comfortable. The versatile design is suitable for installation on vehicle windows or doors, offering a practical solution for sun management.
