

# Off-Road Dirt Bike

This dirt bike is designed for high performance in off-road environments. Its robust engine and responsive suspension provide excellent handling and control.

## Overview

### High Performance Off-Road Engineering

The TKX-110 is a purpose-built pit bike designed for riders who demand performance and durability on the track. Featuring a 110cc engine coupled with a throaty performance exhaust, this machine is engineered to deliver reliable power and an aggressive riding experience. Its high-quality components, including inverted front shocks and an aluminum swing arm, ensure responsive handling across diverse off-road terrains.
