

Off-Road Dirt Bike

This dirt bike is designed for off-road adventures. It features a robust engine, durable frame, and responsive suspension for tackling challenging terrains.

Overview

High-Performance Off-Road Experience

The D52-160 is engineered for off-road enthusiasts seeking a balance of power and agility. Equipped with a 160cc oil-cooled racing engine and precision-tuned suspension, this dirt bike is built to handle challenging terrains with confidence. Its compact design and high ground clearance make it an ideal choice for riders looking for a responsive and exhilarating off-road machine.
