Product Overview

Heavy-Duty Off-Road Performance

This off-road heavy equipment tire is engineered for demanding industrial environments, including construction and mining operations. Designed for mixed pavement applications, the E-3/L-3 tread pattern provides superior traction and durability in challenging terrains such as mud, gravel, and rocky conditions. These tires are built to resist cuts and punctures, ensuring reliable performance and extended service life for heavy-duty vehicles.

Technical Specifications

Model Type	E-3/L-3
Tire Category	OTR (Off-The-Road)
Application Position	All position wheel
Recommended Road Surface	Mixed pavement

Certifications

Compliance & Standards	ISO 9001:2000, CCC, DOT, GCC, SNI, ISO, SGS, CE
