

Off-Road Motorcycle

This off-road motorcycle is designed for cargo transport and troop deployment. Featuring a robust chassis, high ground clearance, and all-wheel drive, this motorcycle is engineered for challenging terrains and adverse conditions.

Overview

Rugged Performance

The EQ2100 series is a family of 6x6 off-road military trucks designed for cargo transport and troop deployment. Featuring a robust chassis, high ground clearance, and all-wheel drive, these trucks are engineered for challenging terrains and adverse conditions. The overall design emphasizes reliability, durability, and ease of maintenance in demanding operational scenarios.

Vehicle Details

Model Designation

EQ2100E6D

Performance & Capabilities

Drive System

6x6 • All-Wheel Drive

Engine Type

Multi-fuel diesel engine

Design & Build

Construction Features

- Robust chassis
- High ground clearance
- Heavy-duty suspension
- Reinforced bumper
- Protective grille
- High-mounted air intake

Utility

Cargo Bed

Spacious cargo bed with drop-down sides
