

Off-Road Motorcycle

This off-road motorcycle is designed for rugged terrain and adventurous riding. It features high ground clearance, knobby tires, and a robust suspension system.

Product Overview

Rugged Off-Road Performance

This 150cc enduro motorcycle is engineered specifically for challenging off-road terrain. Featuring a robust single-cylinder engine and a reliable manual transmission, it offers the power and control necessary for trail riding and rough environments. With a design focused on durability and utility, it comes equipped with essential features like a rear luggage rack and high ground clearance to support diverse riding requirements.
