

Oil-Filled Electric Radiator Heater

This oil-filled electric radiator provides efficient space heating. It utilizes multiple heat settings and an adjustable thermostat for customized comfort.

Overview

Efficient Heating Solution

This oil-filled electric radiator provides a reliable and energy-efficient heating solution for various indoor environments. Engineered with a large heating surface and fast radiation capabilities, it ensures consistent warmth while operating quietly without fumes or odors. The unit includes advanced safety features such as triple overheat protection and pressure-tested casing, making it a dependable choice for professional use.

Technical Specifications

| | |
|-----------------|-------------------|
| Power Supply | 220-240V, 50/60Hz |
| Fin Size | 150 x 580 mm |
| Turbo Fan Power | 400 W |
| Approvals | GS, CE, EMC, ROHS |

Features

Key Features

- 3 heat settings
- Adjustable thermostat control
- Triple overheat protection system
- 24-hour timer
- Pressure tested for safety
- Smooth castors for mobility
- Integrated cord storage
