

Oil-Filled Radiator Heater

This oil-filled radiator heater provides efficient and safe heating for indoor spaces. It has adjustable thermostat settings and safety features including overheat protection and a tip-over switch.

Product Overview

Efficient Heating Performance

The OHC-D oil-filled radiator heater is engineered for reliable and efficient indoor climate control. Featuring a large heating surface and advanced radiation technology, it provides consistent warmth while maintaining energy efficiency. Designed with safety as a priority, the unit includes thermal cut-off protection and is pressure-tested to ensure long-term durability in professional or residential environments.

Technical Specifications

Model	OHC-D
Safety Certifications & Features	Thermal cut-off, Pressure tested, Overheat protection, Tip-over switch

Key Features

Operational Highlights

- Adjustable thermostat control
- Energy efficient design
- Large heating surface for optimal radiation
- Convenient cord storage
- Easy-to-clean exterior
- Smooth castor wheels for mobility
