

Oil-Filled Radiator Heater with Overheat Protection

This oil-filled radiator heater provides efficient space heating with multiple fins and oil channels. It includes tip-over and overheat protection for safe operation.

Overview

Efficient Space Heating Solution

This oil-filled radiator heater is engineered for consistent and safe indoor heating, making it an ideal choice for residential or office environments. With a durable steel construction and adjustable thermostat control, it offers reliable performance and user-friendly operation. The unit is designed with safety in mind, featuring an automatic overheat cut-off mechanism and indicator lights for operational status.

Technical Specifications

Operating Voltage	220-240V, 50Hz
Steel Thickness	0.5 mm
Fin Dimensions	130mm x 320mm
Oil Channels	4

Features

Safety Features	Overheat Protection, Indicator Lights, Adjustable Thermostat
Fin Configuration	7 to 15 fins

Compliance
