

Oil-Filled Radiator Space Heater

This oil-filled radiator is a space heating apparatus designed to provide efficient and consistent warmth. It features multiple fins for increased surface area and heat dissipation.

Overview

Efficient Heating Performance

This oil-filled radiator is a reliable space heating solution designed for consistent and efficient warmth. Featuring multiple fins for optimal heat dissipation and adjustable controls, it allows users to customize their comfort levels easily. Built with essential safety features like tip-over protection and thermal cut-off, it ensures peace of mind during operation.

Performance

Heat Settings

1500 W

Minimum Power

2500 W

Maximum Power

Control Method	Mechanical
Thermostat	Yes

Safety Features

Safety Mechanisms	Overheating Protection, Tip-over Switch
--------------------------	---

Design & Usability

Features

- Power indicator light
- Hidden power cord storage
- Smooth castors for mobility
