

Oil-Filled Radiator Space Heater

This oil-filled radiator is designed to provide efficient and consistent warmth. It has multiple fins filled with oil that is heated electrically, providing radiant heat.

Overview

Efficient Heating Solution

This oil-filled radiator provides consistent, radiant warmth ideal for small to medium-sized indoor spaces. Engineered with a durable 0.5mm steel construction and environmentally friendly conducting oil, it delivers reliable heating performance. With user-friendly features like adjustable thermostats and multiple power settings, this unit ensures both comfort and energy-efficient operation.
