

Oil-Filled Radiator with Adjustable Heat Settings

This oil-filled radiator provides consistent and efficient heating for residential spaces. Multiple heat settings can be controlled via a rotary dial for customized comfort, and a safety thermal cut-off prevents overheating.

Product Overview

Efficient Supplemental Heating

This oil-filled radiator is designed to provide consistent and efficient heating for residential and office environments. It features an optimized fin design for maximum heat dissipation and intuitive controls for customized comfort. With built-in safety mechanisms and high portability, this unit is an ideal solution for supplemental heating needs.

Performance & Control

Heat Settings	Adjustable via rotary dial
Control Interface	Rotary Dial, On/Off Switch, Indicator Lights

Safety & Design

Safety Features

Thermal Cut-off • Overheat Protection

Design Highlights

- Optimized fin design for heat dissipation
- Built-in cord storage
- Caster wheels for portability

Applications

Recommended Use	Bedrooms, Offices, Living Rooms
