

Oil-Filled Radiator with Adjustable Thermostat

This oil-filled radiator provides consistent and efficient heating for any room. It has multiple heat settings and an adjustable thermostat for customized comfort.

Overview

Efficient Heating Solution

This oil-filled radiator provides consistent, long-lasting warmth suitable for various indoor environments. Designed with safety and efficiency in mind, it features adjustable thermostat controls and a triple overheat protection system. With its mobile design and multiple heat settings, it offers a reliable and customizable supplemental heating solution for professional and residential spaces.

Technical Specifications

Certifications

GS • CE • EMC • RoHS

Power Supply	220-240V, 50/60Hz
Heat Settings	3
Safety Features	Triple Overheat Protection, Pressure Tested, Indicator Lights
Fin Size	150 x 580 mm
