

# Oil-Filled Radiator with LCD Display

This oil-filled radiator provides efficient and consistent warmth. It features a digital control panel, remote control, multiple heat settings, and safety features.

## Product Overview

### Efficient Heating Solution

This portable oil-filled radiator is engineered to provide consistent and reliable warmth for professional and residential environments. Equipped with an intuitive LCD display, 24-hour timer, and precise room thermostat, it offers advanced control over heating schedules and energy usage. Its robust steel construction and integrated safety features, including child lock protection, ensure a durable and secure heating experience.

## Technical Specifications

Steel Thickness	0.5 mm
Fin Dimensions	120mm x 580mm
Fin Configuration	5 to 13 fins

## Performance Metrics

### Power Output Options

Total Power	Stage Settings (W)
1000	500/500/1000
1500	600/900/1500
2000	800/1200/2000
2500	1000/1500/2500

Heat Settings	High, Middle, Low
