

# Oil-Filled Radiator with Slotted Fins

This oil-filled radiator is designed with special slotted fins for faster heating. The radiator provides efficient heat distribution, making it suitable for residential spaces.

## ADDITIONAL IMAGES

## Overview

### High-Efficiency Heating Solution

This oil-filled radiator is engineered with specialized slotted fins, providing a significantly faster heat-up time compared to standard fin designs. Designed for versatility and safety, the unit features multiple power settings and overheat protection, making it an ideal choice for supplemental heating. With customizable options including a 24-hour timer and a turbo fan, this heater can be tailored to meet diverse environmental requirements.

## Technical Specifications

### Power Output Range

**1000 W**  
Minimum Power

**2800 W**  
Maximum Power

### Fin Dimensions

150 x 580 mm

### Fin Count Options

5 to 15 fins

## Features

### Optional Enhancements

- 24-hour timer
- 400W turbo fan

### Safety & Environment

Overheating Protection, Green Environmental Oil, Power Indicator Light

## Performance

### Heating Performance

Feature	Benefit
Slotted Fin Design	Faster heat-up compared to normal fins
Power Settings	3 adjustable levels
