

Oil-Filled Space Heater with Adjustable Thermostat

This oil-filled radiator provides efficient and safe space heating. It features multiple heat settings controlled by a rotary dial and a built-in thermostat to maintain a consistent room temperature.

Product Overview

Efficient and Safe Heating Solution

This oil-filled space heater provides reliable, energy-efficient warmth for homes and offices. Engineered with a large heating surface and fast radiation technology, it features adjustable thermostat control and triple overheat protection for maximum safety. The unit is designed for convenience, including smooth-rolling castors for portability and integrated cord storage for a tidy workspace.

Technical Specifications

Power Supply	220-240V, 50/60Hz
Approvals	GS, CE, EMC, ROHS
Turbo Fan Power	400 W
Heat Settings	3

Logistics & Capacity

Shipping Capacity by Fin Count

Fins	20'GP	40'GP	40'HQ
