Product Overview

Efficient Oil-Filled Heating Solution

This oil-filled radiator provides consistent and reliable space heating for various environments. Designed with safety and convenience in mind, the unit features a triple overheat protection system and pressure-tested construction. With adjustable thermostat controls and multiple heat settings, it offers customizable comfort and energy-efficient performance for professional or residential use.

Technical Specifications

Electrical Requirements

220 V

Voltage

60 Hz

Frequency

Key Features

- 3 adjustable heat settings
- Triple overheat protection system
- Pressure tested for safety
- Integrated cord storage
- Smooth castors for mobility

Safety & Compliance

GS, CE, EMC, ROHS

Logistics & Configuration

Model Specifications

Configuration	Net Weight	Gross Weight	Dimensions (cm)
7 Fins	8.1kg	9.1kg	34x15x65
9 Fins	10.0kg	11.1kg	43x15x65
11 Fins	11.9kg	13.1kg	50x15x65
13 Fins	13.8kg	15.1kg	58x15x65

Container Loading Capacity
