

Oil Filled Space Radiator with Adjustable Thermostat

This oil-filled radiator is designed for space heating in indoor environments. It has multiple fins to maximize heat distribution and an adjustable thermostat to maintain the desired temperature.

Overview

Efficient Indoor Heating Solution

This oil-filled space radiator provides reliable and efficient heating for indoor environments. Designed with safety and convenience in mind, it features adjustable thermostat controls, multiple heat settings, and a triple overheat protection system. The unit is built for portability with smooth-rolling castors and includes integrated cord storage for a clean, organized appearance.

Technical Specifications

Voltage & Frequency	220-240V, 50/60Hz
Heat Settings	3
Approvals	GS, CE, EMC, ROHS

Performance & Safety

Safety Features

- Triple overheat protection system
- Pressure tested for safety
- Indicator lights for operation

Fin Dimensions	130 x 580 mm
