

Oil-Free 12L Air Compressor

This oil-free air compressor features a 12L tank. It delivers a maximum pressure of 100 PSI and is suitable for inflating tires and powering pneumatic tools.

Overview

Compact and Maintenance-Free Performance

This 12L oil-free air compressor is designed for both professional and DIY applications, offering a reliable power source in a portable form factor. With a 1/3HP copper motor and an oil-free pump system, it ensures clean air output and minimal maintenance requirements. Its lightweight design and ergonomic handle make it an ideal choice for tasks requiring mobility, such as tire inflation or operating pneumatic tools.

Technical Specifications

Maximum Pressure

7 bar

Max Pressure

100 psi

Max Pressure

Tank Capacity	12 L
Motor Power	1/3 HP
No Load Speed	4700 rpm
Maximum Air Delivery	45 L/min

Features

Maintenance

Oil-Free • Maintenance-Free

Design Features

- Copper motor
- Integrated pressure gauges
- Adjustable regulator
- Ergonomic handle
- Lightweight construction
