Overview

Industrial High-Flow Oil-Free Compressor

This professional-grade oil-free air compressor is engineered for high-performance industrial applications requiring clean, reliable compressed air. Featuring a robust 1450W x 3 motor configuration, it delivers efficient air flow with low noise and vibration levels. Designed for durability and ease of use, this unit includes advanced overload protection and a large 100L tank to support continuous operation in demanding environments.

Performance Specifications

Technical specifications overview including motor speed and package dimensions.

Air Flow Performance

300 L/min

Air Flow at 8bar

500 L/min

Air Flow at 4bar

Motor Speed

Frequency	Speed
50Hz	2800 rpm
60Hz	3400 rpm

Technical Details

Power Specifications	1450W x 3
Voltage Compatibility	110-120V, 220-240V
Tank Capacity	100 L

Physical Dimensions

Gross Weight	74 KG
Package Dimensions	122 x 40 x 77.5 cm

Features & Certification

Highlighting the core technologies and performance advantages including four-fold protection.

Key Features

Oil-Free • Low Noise • Low Vibration • Overload Protection • Silenced Motor
