

Oil-Free Air Compressor 2200W 35L

This oil-free air compressor provides fast storage and high flow supply. It is designed for low maintenance and reliable performance in various applications.

Product Overview

High-Performance Oil-Free Air Compressor

This 2200W oil-free air compressor is engineered for rapid storage and high-flow air supply, making it an ideal choice for demanding industrial applications. Designed with a focus on durability and efficiency, it features a 35L tank capacity and an advanced oil-free system that ensures clean, reliable air delivery. The unit incorporates intelligent design elements for low-noise operation and low vibration, providing a professional-grade solution for users who prioritize performance and low maintenance.

Technical Specifications

Performance overview and technical specifications for the 2200W oil-free air compressor.

Input Power	2200 W
Tank Capacity	35 L
Motor Speed (50Hz)	2800 rpm
Motor Speed (60Hz)	3400 rpm
Voltage Compatibility	110-120V, 220-240V

Performance Metrics

Air Flow Performance

170 L/min

Air Flow @ 8bar

230 L/min

Air Flow @ 4bar

Physical Attributes

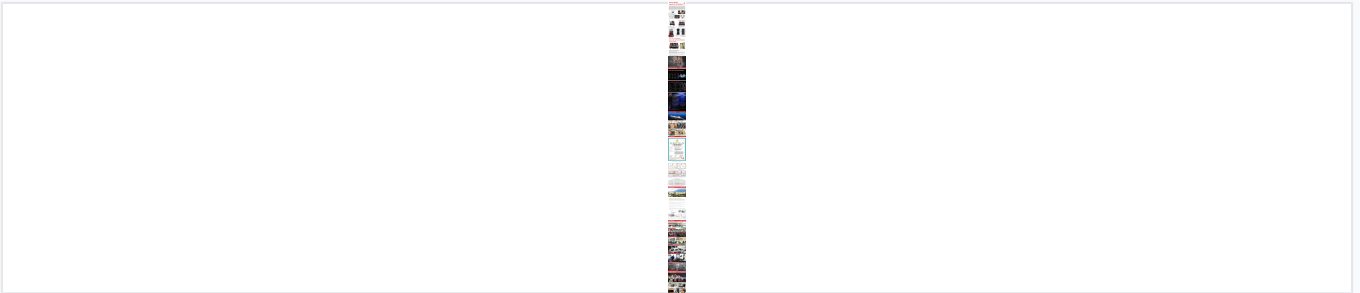

Gross Weight

32 KG

Package Size

60.5 x 30.5 x 65.5 cm

Key Features

Advanced design features, including cooling technology and robust construction for industrial performance.

Key Benefits

Oil-Free Operation • Fast Storage • High Flow Supply • Low Noise • Low Vibration • Overload Protection
