

# Oil-Free Air Compressor with 55L Tank

This oil-free air compressor provides a consistent supply of clean air. Its twin-motor system and 55L tank ensure efficient performance for various applications.

## ADDITIONAL IMAGES

## Overview

### High-Performance Air Solution

This oil-free air compressor is engineered for reliability and efficient performance in demanding professional environments. Featuring a robust twin-motor system, it delivers a high air flow rate while ensuring clean, oil-free air output, which helps extend the lifespan of connected tools and reduces maintenance requirements. Designed with an elegant industrial aesthetic, this unit includes a 55L storage tank and wheels for easy portability, making it an ideal choice for tasks requiring a consistent and dependable source of compressed air.

## Technical Specifications

Detailed technical specifications and performance data for the 55L oil-free air compressor.

Input Power	3600 W
Tank Capacity	55 L
Motor Speed (50Hz)	2800 rpm
Motor Speed (60Hz)	3400 rpm

## Performance Metrics

### Air Flow Performance

**290 L/min**

Air Flow @ 8bar

**380 L/min**

Air Flow @ 4bar

**640 L/min**

Max Air Flow

## Logistics

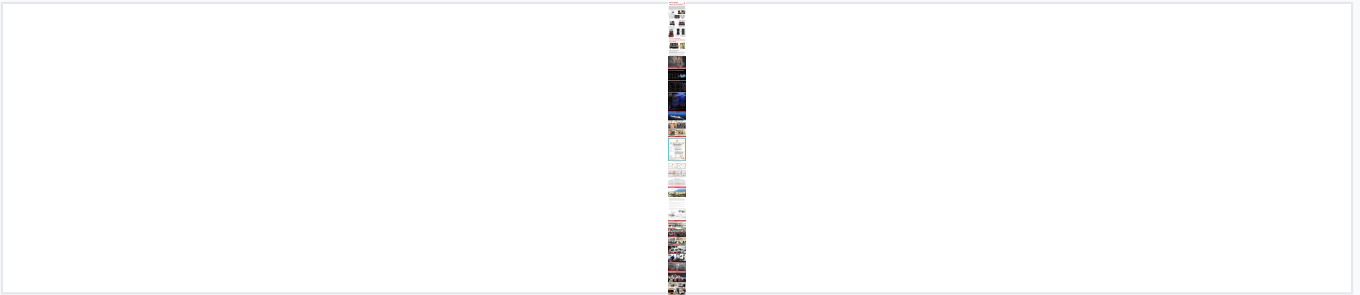

Gross Weight

45 KG

Package Dimensions

75.5 x 37.5 x 67.5 cm

## Features

Overview of the core design technologies and performance advantages.

Key Features

Oil-free, Twin-motor system, Portable, High flow supply, Low maintenance

## Compliance

### Certifications

CE Certified • Electromagnetic Compatibility
