

Oil-Free Direct Drive Air Compressor with 24L Tank

This oil-free air compressor features a direct drive motor. The 24L tank provides sufficient air storage for various pneumatic applications while ensuring quiet operation.

Overview

Professional Performance, Maintenance-Free

This 1350W oil-free, direct-drive air compressor is engineered for quiet, reliable operation in professional and home workshops. The maintenance-free design eliminates the need for oil lubrication, providing clean air output ideal for spray painting, pneumatic tools, and precision tasks. Equipped with a 24-liter plastic-coated tank, it balances portability with sufficient air capacity for intermittent heavy-duty use.

Technical Specifications

Maximum Pressure

| | |
|--------------------------|----------------------------|
| 8 bar Pressure | 115 psi Pressure |
|--------------------------|----------------------------|

| | |
|------------------|------------|
| Motor Power | 1350 W |
| Tank Capacity | 24 L |
| Maximum Air Flow | 237 L/min |
| Rotation Speed | 2650 r.p.m |

Design & Build

| | |
|---------------------|---|
| Cooling System | Aluminum Cylinder Head, Aluminum Crankcase, Thermal Protection System |
| Physical Dimensions | 56 x 23 x 53 cm |
| Weight | 25 kg |

Features

Key Operational Features

- Oil-free design for clean air
- Maintenance-free lubrication system
- Easy-open drain valve
- Built-in pressure regulator with gauge
- Quick-connect air coupling
- Integrated carry handle
- Plastic-coated tank for durability

Certification

Regulatory Standards

CE • ISO 9001 • RoHS • GS • TUV
