Product Overview

Professional Oil-Less Airbrush Compressor

This portable and lightweight airbrush compressor features a maintenance-free oil-less piston design, ensuring clean air delivery for demanding applications. Equipped with a 3-litre receiver tank, it provides a pulse-free air supply and operates with minimal noise, making it suitable for indoor use by artists, modelers, and cake decorators. Integrated safety features include an auto-stop function at 4 bar, a built-in cooling fan for thermal protection, and a pressure relief valve.

Technical Performance

Performance Metrics

23 L/min

Air Delivery

57 PSI

Maximum Pressure

3 L

Tank Capacity

Operating Parameters

Parameter	Value
Auto-Stop Pressure	4 Bar
Auto-Restart Pressure	3 Bar
Rotational Speed	1450 / 1700 rpm

Power and Compatibility

Voltage Compatibility	220-240V 50Hz, 110-120V 60Hz
Air Outlet	1/8 BSP Male
