

Oil Press Machine

This oil press is designed for extracting oil from various oilseeds and nuts. It utilizes a screw-type mechanism to apply pressure and efficiently extract oil.

Product Overview

High-Efficiency Oil Extraction

The 6YL-95 oil press is a robust and efficient machine designed for extracting oil from various oilseeds and nuts. Utilizing a heavy-duty screw-type mechanism, it ensures consistent durability and high oil yield in demanding industrial environments. This integrated system is engineered for continuous operation, making it an ideal solution for small to medium-sized oil production facilities.

Technical Specifications

Main Components

- Feeding Hopper
- Pressing Chamber
- Screw Shaft
- Discharge Outlet
- Control Panel

Model	6YL-95
Operating Mechanism	Screw-type
Compatible Materials	Soybeans, Peanuts, Rapeseed, Sunflower Seeds

Operational Features

Operation Type

Continuous Operation • Industrial Grade
