

Oil Pump for CAT320D C6.4 Excavators

This oil pump is designed for CAT320D excavators with C6.4 engines. It provides optimal lubrication and hydraulic pressure for reliable operation.

ADDITIONAL IMAGES

Product Overview

Precision-engineered oil pump unit designed for optimal engine lubrication.

High-Performance Oil Pump

This high-performance oil pump is precision-engineered as a direct replacement for CAT320D C6.4 excavators. Designed to maintain optimal lubrication and pressure, it ensures the reliability and longevity of your heavy machinery's engine systems. The unit is constructed from high-speed steel to provide robust performance in demanding construction environments.

Technical Specifications

Material	High speed steel
Compatibility	CAT320D, C6.4 Engines

Logistics and Trade

Shipping Options

- DHL
- FedEx
- UPS
- TNT
- EMS
- ARAMEX
