

Oil Seal for Kubota Tractors

This oil seal is designed for Kubota tractors. It prevents oil leakage, ensuring optimal performance of the engine and transmission systems.

Product Overview

High-Performance Tractor Oil Seals

These premium oil seals are precision-engineered to provide a reliable barrier against leakage in critical tractor engine and transmission systems. Designed for durability and long-term performance, these components help maintain optimal lubrication levels, directly contributing to the longevity and efficient operation of your machinery. Each unit is manufactured to rigorous standards to ensure a perfect fit and seamless integration during maintenance and repair tasks.

Compatibility

Supported Tractor Models

L3408, L3608, L4508, L4708, M5000, L5018

Technical Details

Key Features

- OEM-compliant design
- Leakage prevention technology
- Enhanced engine component protection
- Heavy-duty construction for field operation

Quality Compliance

OEM Specification • High Durability
