

Omnidirectional Gooseneck Microphone with Windscreen

This microphone features a flexible gooseneck design for optimal sound capture. It includes a foam windscreen to reduce unwanted noise and improve audio clarity.

Overview

Professional Omnidirectional Gooseneck Microphone

This omnidirectional gooseneck microphone is designed for precise sound capture in professional environments. It features a flexible gooseneck for optimal positioning and includes a foam windscreen to effectively minimize wind noise and plosives. Ideal for voice recording, conferencing, and communication systems, this microphone ensures clear and consistent audio quality.

Technical Specifications

Dimensions	16.0x5.0mm
Sensitivity	-52 dB
Directivity	Omnidirectional

Electrical Characteristics

Impedance	d2.0Ω
Operating Voltage	4.5 V

Performance Metrics

Frequency Response	100-16kHz
S/N Ratio	60 dB

Connectivity

Input Plug Diameter	3.5 mm
---------------------	--------

Features

Key Features	Flexible Gooseneck, Foam Windscreen, Omnidirectional Pickup
