Product Overview

High-Efficiency On-Demand Heating

This on-demand natural gas water heater provides a continuous, reliable supply of hot water without the need for a storage tank. Designed for efficient indoor installation, it features precise electronic temperature control and advanced safety systems, including flame failure and overheat protection. Its compact, wall-mounted design ensures it fits seamlessly into various environments while optimizing energy consumption.

Performance Metrics

Hot Water Capacity

13 L/min

Capacity (t=25)

16 L/min

Capacity (t=25)

18 L/min

Technical Specifications

Gas Type & Pressure

Gas Type	Rated Pressure
NG	2000 Pa
LPG	2800 Pa

Operating Water Pressure

0.02 - 0.8 MPa

Exhaust System

Constant temperature strong exhaust
