

On-Demand Tankless Water Heater with Digital Display

This tankless water heater is engineered for on-demand hot water. It includes a digital display to control and monitor the temperature.

Overview

On-Demand Performance

This tankless water heater provides an efficient, on-demand hot water supply, eliminating the need for bulky storage tanks. It features an integrated digital display for precise temperature control and real-time monitoring, ensuring optimal user comfort. Designed for residential applications, the unit is compact, wall-mountable, and incorporates essential safety features for reliable daily operation.

Technical Specifications

Max Operating Altitude	2000 m
Operating Temperature	0°C to 40°C
Max Relative Humidity	80 %

Safety & Compliance

Installation Requirements

- Must be installed by professional personnel
- Use only company-specified or approved accessories
- Regularly check gas pipelines and joints for leaks
- Do not install in damp areas or locations prone to water splashing
- Ensure adequate ventilation; do not block or cover vents

Usage Warnings

- Do not disassemble or repair the unit yourself
- Turn off gas and power when not in use for long periods
- Do not use during thunderstorms
- Keep out of reach of children
- Do not place heavy or flammable objects on the unit
- Do not rinse with water or use corrosive cleaners

Prohibited Environments

Flammable/Explosive Areas, Direct Sunlight, High Dust/Grease, Corrosive Gas, Strong Vibration, Strong Magnetic Fields, Radioactive Areas
