

On-Demand Tankless Water Heater

This tankless water heater provides on-demand hot water. Its compact design allows for space-saving installation.

Product Overview

On-Demand Performance

This tankless water heater offers a highly efficient, on-demand hot water solution designed for modern residential applications. Its compact architecture allows for versatile, space-saving installation in tight areas while maintaining high-performance output. Engineered for reliability, it provides users with precise temperature control to ensure consistent comfort and energy efficiency.

Technical Specifications

Flow Rate Capacity

24 L/min
Flow Rate

Key Features

Tankless Design, Compact Size, Precise Temp Control, On-Demand Heating

Ideal Use Case

Residential
