

On-Ear Headphones with 40mm Driver

These on-ear headphones provide a comfortable and immersive listening experience. The headphones deliver clear audio with balanced bass and treble.

Product Overview

Professional On-Ear Audio Solution

These on-ear headphones are engineered for clarity and comfort, featuring a 40mm driver that delivers a balanced audio profile. Designed with an adjustable headband and soft earcups, they are suitable for extended listening sessions in various professional or personal environments. The unit includes a reliable integrated microphone and a standard 3.5mm connection for broad compatibility.
