

On-Ear Headphones with 40mm Driver

These on-ear headphones provide a comfortable listening experience with cushioned earcups and an adjustable headband. Their closed-back design minimizes sound leakage while enhancing bass response, and they connect via a standard 3.5mm audio cable.

Product Overview

Professional Audio Performance

These on-ear headphones feature high-performance 40mm drivers designed to deliver clear, balanced sound across a wide frequency range. With a comfortable, lightweight construction and adjustable headband, they are built for extended listening sessions in professional or personal environments. The closed-back design effectively minimizes sound leakage while enhancing bass response for a more immersive experience.
