

On-Road Utility Motorcycle

This is a street motorcycle designed for on-road use. It features a front basket, side mirrors and a kickstand.

Overview

Reliable On-Road Utility Transport

This on-road utility motorcycle is designed for efficiency and daily reliability in professional or commuting environments. Featuring a robust build with a distinctive white and silver color scheme accented by an orange front fender, it balances durability with practical utility features. It comes fully equipped with essential components like a front cargo basket and side mirrors, making it an ideal solution for last-mile delivery or urban transport needs.
