

One-Piece Steel Claw Hammer with Ergonomic Grip

This one-piece claw hammer is made from solid forged steel for strength. Its ergonomic handle features a vibration-absorbing, non-slip grip and a safety pin for enhanced control.

Product Overview

Professional Grade Durability

This one-piece claw hammer is engineered for heavy-duty construction and demolition tasks. Featuring a solid forged steel design, it offers exceptional strength and long-term durability for professional use. The ergonomic handle is specifically crafted to reduce vibration and provide a secure, non-slip grip, ensuring comfort and control during extended work sessions.
