

Online Uninterruptible Power Supply (UPS)

This online UPS provides reliable power protection for critical equipment. It utilizes double-conversion technology to ensure seamless power transfer and voltage regulation.

Product Overview

FR-UK31 Series Online UPS

The FR-UK31 series online UPS provides reliable power protection for critical equipment, utilizing advanced double-conversion technology for seamless power transfer and precise voltage regulation. This system is engineered to safeguard sensitive electronics against power outages, voltage sags, surges, and frequency variations. Designed for high-availability environments, it includes advanced battery management to extend battery life and features a user-friendly interface for efficient monitoring and control.

Technical Features

Technology	Online Double-Conversion
Protection Against	Power Outages, Voltage Sags, Surges, Frequency Variations

Applications

Recommended Applications

- Data Centers
- Server Rooms
- Sensitive Electronic Equipment

Management & Interface

Battery Management

Advanced Management • Extended Battery Life

User Interface	User-friendly monitoring and control interface
