

Open Reversible Inflatable Life Raft

This life raft is designed for marine safety and can accommodate 6-125 people. It is equipped with small knives, hydraulic releasers, and hand flare signals.

Product Overview

Reliable Marine Safety Solution

The Open Reversible Inflatable Life Raft is a critical safety component designed for marine environments. Engineered for quick deployment and durability, this life-saving equipment is suitable for various ships and peripheral marine installations. Its design ensures essential buoyancy and protection during emergency situations.

Available Models

- KHA Type Throw Over Board
- KHD Type Davit-Launched
- KHZ Type Self-Righting
- KHZD Type Self-Righting Davit-Launched
- KHR Type Canopied Reversible
- KHK Type Open Reversible
- KHY (SR) Type Self-Righting
- KHY Type Leisure
- KHYI Type Leisure
