

Optical Touch Interactive Whiteboard for Education

This interactive whiteboard utilizes optical touch technology for user interaction. It is suitable for presentations, collaborative projects, and interactive learning environments.

Product Overview

Interactive Optical Touch Whiteboard

This interactive whiteboard utilizes advanced optical touch technology, specifically engineered for educational and professional environments. It enables seamless multi-user interaction, allowing participants to engage with displayed content through intuitive touch gestures. Designed for durability and ease of use, it serves as a central hub for collaborative work, interactive learning, and dynamic presentations.

Technical Specifications

Primary Applications

- Educational Classrooms
- Professional Presentations
- Collaborative Workspaces

Key Features

Durable Surface • User-Friendly Interface • Seamless Device Connectivity

Touch Technology

Optical Touch

Interaction Features

Multi-user Support, Touch Gesture Control, Computer Integration
