

Orange Plastic Four-Blade Fan for Electrical and Exhaust Applications

This orange plastic fan features four blades designed for optimal airflow in electrical and exhaust applications. It is equipped with a metal bushing for secure mounting in household appliances and ventilation systems.

Product Overview

High-Efficiency Ventilation Component

This four-blade fan is engineered for optimal airflow in electrical and exhaust applications. Constructed from durable, high-quality plastic, it features a central hub with a metal bushing for secure mounting. Its aerodynamic design makes it an ideal component for air conditioners, ventilation systems, and various household electrical appliances.

Physical Characteristics

Color

Orange

Number of Blades

4

Material

Durable Plastic

Technical Details

Mounting Mechanism

Central hub with metal bushing

Applications

Suitable Applications

- Household electrical appliances
- Air conditioning units
- Ventilation equipment
- Exhaust systems
