

Ordos Sports Center Project - 170,000 Square Meter Facility

The project encompasses 170,000 square meters. It features a modern design with a curved roof and expansive plaza.

Project Overview

Ordos Sports Center Project

The Ordos Sports Center is a large-scale facility spanning 170,000 square meters, designed to serve as a premier venue for athletic and community events. This architectural project emphasizes a modern aesthetic combined with high functionality, featuring a unique curved roof design and an expansive plaza that integrates seamlessly with the surrounding urban landscape. The facility is engineered to provide a user-friendly environment that balances structural innovation with public accessibility.
