

Oscillating Floor Fan

This oscillating floor fan is designed for powerful and efficient air circulation. It features an oscillation function to distribute air across a wide area.

Product Overview

High-Performance Oscillating Floor Fan

This versatile oscillating floor fan is engineered for powerful and efficient air circulation in professional and commercial environments. Featuring a robust metal construction with options for electric plated or powder-coated finishes, it ensures long-lasting durability. With convenient features like a remote control and a 7.5-hour timer, this fan offers flexible operation to suit various cooling needs.

Technical Specifications

Performance Metrics

1300 rpm
Speed

90 deg
Max Oscillation

7.5 hours
Timer

Electrical Compatibility

- 110V / 60Hz
- 230V / 50Hz

Construction Materials

- Aluminum Blades
- Electric Plated or Powder Coated Guard
- Electric Plated Base Frame

Available Sizes

12 inch, 14 inch, 16 inch, 18 inch

Logistics & Packaging

Packaging Dimensions (cm)

Size	Dimensions (L x W x H)
12 inch	45 x 16.5 x 45
14 inch	51 x 16.5 x 50.5
16 inch	56 x 19 x 56
18 inch	61 x 19 x 61
