

Oscillating Multi-Tool Blade Set, 9 Pieces

This 9-piece oscillating blade set is designed for cutting and material removal. It includes blades for wood, plastic, and metal, with shapes and sizes for sawing, cutting, scraping, and sanding.

Product Overview

Versatile Cutting Performance

This 9-piece oscillating multi-tool blade set is engineered for high-efficiency cutting and material removal tasks. Constructed from durable, high-quality materials, these blades offer fast cutting speeds and an extended service life for demanding projects. Designed with a universal interface, this set ensures broad compatibility with most oscillating multi-tools currently on the market.
