

Oscillating Multi-Tool Scraper Blade

This multi-tool oscillating saw blade is designed for scraping applications. It is suitable for removing carpet, paint, and other materials.

Product Overview

Oscillating Scraper Blade

This oscillating multi-tool scraper blade is designed for efficient material removal tasks. Its wide blade geometry is specifically engineered for stripping away carpet, paint, and other stubborn surface materials. Featuring a universal interface, it offers broad compatibility with most standard oscillating multi-tool systems.
