

Oscillating Pedestal Fan with Adjustable Height

This oscillating pedestal fan is designed for efficient air circulation in various environments. It features a robust metal construction, multi-speed motor, adjustable height and tilt, and a protective wire cage.

Product Overview

Professional Air Circulation Solution

The ZF-1602DRSCR is a high-performance oscillating pedestal fan engineered for efficient and reliable air circulation across diverse environments including offices, workshops, and residential spaces. Its robust metal construction ensures lasting durability and stability during operation, while the multi-speed motor allows for precise airflow control. With integrated oscillation and adjustable height, it provides comprehensive coverage and versatile positioning to suit specific cooling requirements.

Technical Features

Build Quality	Robust Metal
Safety Equipment	Protective Wire Cage
Oscillation	Yes

Flexibility & Design

Adjustable Height	Yes
Tilt Adjustment	Yes
Speed Settings	Multi-speed motor
